

Perspective on one's career and research contribution

Hubert J. Morel-Seytoux¹

Emeritus Professor at Colorado State University

Abstract. A brief account of the history of Hydrology Days.

A perspective on my career at Colorado State University

A perspective on my research general line during my professional career

Was there any impact of my work in the field? How do you measure it?

A broad narrative of my research over the last ten years as a retired professor

A brief, slightly more detailed, description of several topics of my current research and interest.

¹ Emeritus Professor at Colorado State University & Hydroprose International Consulting
