

American Geophysical Union  
TWENTY-FOURTH HYDROLOGY DAYS  
March 10 – March 12, 2004

Dedicated to  
**András Szöllösi-Nagy**  
Director, Division of Water Sciences of UNESCO  
Secretary of the International Hydrological Programme of UNESCO

In recognition of his significant contributions in real-time forecasting and control of water resource systems, time series analysis and modeling of water resource processes, and policy and administration of water and environmental research.
